PROFESSIONAL BACKGROUND

Time period	Employer	Position/function	Main tasks and responsibilities
04/2023 – now	Civic Literacy initiative	Co-founder & CEO	<p>Co-founded a nonprofit dedicated to rethinking capacity building in the global development field, with the ambition of helping nonprofits deliver trainings that are meaningful and measurable.</p> <p>This includes the development of a capacity building data standard, and an open data portal for capacity building data.</p>
09/2017 – now	Institute of Journalism of Bordeaux	Adjunct lecturer	<p>Redesigned the data journalism module curriculum around School of Data's data pipeline and hypothesis-driven methods.</p> <p>Introduced interactive exercises using digital whiteboards and developed new pedagogical concepts such as the horizon table.</p> <p>Taught the technical skills needed for data journalism, including the use of Google Spreadsheets, Tabula, webscraper.io, OpenRefine, QGIS, Github, Bash, and Python.</p>
05/2019 – 03/2023	Open Knowledge Foundation	Senior Consultant, Data team Lead	<p>Responsible for the School of Data programme and as well as the development of new data-related and Innovation projects. Main responsibilities included:</p> <p><u>Project design and management</u>: Designed and managed projects from ideation to delivery, ensuring timelines were met and stakeholder needs were addressed.</p>

Training facilitation and project support: Designed and delivered trainings and workshops for a wide variety of audiences. Led the development of innovative training ([2-step training](#)) and workshop ([dataviz card game](#)) formats and [open resources](#) to improve training outcomes and provided direct support to dozens of civic teams with their data projects.

Data Literacy Network: Coordination of the School of Data network. Led the improvement of pedagogical practices in the network and matched trainers with learners across multiple projects.

Algorithm literacy: Programme design and strategy support to the director of the Open Knowledge Justice programme. Creation of the concept of the [Public Impact Algorithm](#).

EXAMPLE CONSULTING ASSIGNMENTS

Time period	Client	Position/function	Tasks and responsibilities
01/2023 – 03/2023	Digital Earth Team (World Bank)	Senior Consultant – Project lead	<ul style="list-style-type: none"> Led the needs assessment, content writing, and workshop delivery in support of the planning of the Digital Earth Team's Fellowship program. Translated my experience designing and coordinating the School of Data Fellowship into a series of actionable planning documents and templates for the client. Facilitated a 2-day workshop to help the team build their roadmap and task list.
05/2022 – 09/2022	Extractives Industry Transparency Initiative (EITI)	Senior Consultant – Project and team lead	<ul style="list-style-type: none"> Designed and coordinated a datathon aimed at providing innovative solutions and tools to support a transparent energy transition. Developed and implemented a scenario-based design challenge approach to ensure that participant proposals matched the needs of EITI stakeholders. Oversaw the delivery of the project by team members and set up processes to meet strict timelines.
12/2021 – 12/2022	Transparency International	Senior Consultant – Project and team lead	<ul style="list-style-type: none"> Produced an internal needs assessment report based on interviews with TI chapters participating in the SANCUS project. The interviews focused on their ideas for a digital tool project.

01/2020 – 02/2023	CoAct (European Research Consortium on Management Citizen Social Expert Science)	Senior Consultant – Data	<ul style="list-style-type: none"> ● Designed and delivered a data collection training for TI chapters based on the needs identified in the needs assessment report ● Advised all the CoAct consortium members on their data lifecycle, including data collection, protection and collaborative analysis and publication. ● Wrote, updated and published the project’s data management plan ● Designed and coordinated the Open Calls for Gender Equality on behalf of the CoAct consortium
07/2019 – 12/2022	Data for Good (Meta)	Senior Consultant – Project and team lead	<p>Designed and coordinated the delivery of a multilingual geodata curriculum and 14 five-week long remote trainings on public health and disaster preparedness for a dozen governments and international NGOs, including the American Red Cross, Doctors without Borders, and UNICEF.</p> <ul style="list-style-type: none"> ● Managed a global team of trainers, refined School of Data’s training formats, and developed tools to facilitate communication across the project’s many stakeholders. ● All trainings were completed with high ratings from participants, leading to a dozen case studies.
